POPULATION and ASSESSMENT

The figures for population are the 1936 Dominion Census figures.

The Dominion Census shows a total for the Province of 772,782, and the difference of some 37,000 is accounted for, as follows :-

FIRST ; Indians, in Indian Reservations.

SECOND; Persons in park areas, administered by the Dominion Government, for example ; Banff and Jasper Parks.

THIRD ; Persons in the unsurveyed portions of the Province to the North.

These three classes are not included in any of the statements following.

For the purpose of the "Per Capita" Assessment, the total of all assessable land was used, while for the assessment per acre, the assessment of farm lands only was used.

POPULATION and ASSESSMENT

	Population	Farm Land and Subdivisions	Buildings and Improvements	Business	Special	Total Assessment	Per Capita Assessment	Assessed Acreage Farm Lands	Assessment of Farm Lands	Assessment per Acre
Cities	199,454	$57,221,585	$74,098,222	Included in Special	$ 7,154,337	$138,474,144	$694.34	-	-	-

TAX LEVIES

In this statement, business, or any other special tax to be used for municipal purposes, is included under "Municipal Levy".

For notes on Government taxes (Social Services, Educational and Wild Land), see page 13.

Rural schools are schools for which the Municipal Districts levy and collect the taxes, and for all other schools it will be necessary to apply to the Department of Education for information.

The Hail Tax is somewhat in the nature of a voluntary tax, in that it is not imposed unless a person applies for Hail Insurance.

TAX LEVIES 1936

	Municipal	Social Service	Rural School	Hospital	Educational	Hail	Total Levy	Per Capita Levy	Population
Cities	$ 8,649,148	$217,300	-	-	-	-	$ 8,866,448	$44.46	199,434

COLLECTION OF TAXES

With regard to the Municipal Tax, it is necessary to divide this statement into two columns, as in both Municipal and Improvement Districts some proportion of this tax has been worked out on the roads, or on other public works.

In this statement an amount of $51,179.00 is shown in the "Hail" column in Improvement Districts, but no hail taxes are levied by Improvement Districts, and this amount is derived from levies made under special taxes, such as the "Pipe Line" Tax and the "Electric Power" Tax, these taxes being levied direct by the Government only.

For Hospital Tax, see note on page 2.

For Wild Land Tax, see note on page 13.

COLLECTION of TAXES for 1936

* At December 31st, 1935.

LOANS and DEBENTURES

With regard to the debenture liability of cities the per capita has been calculated after deduction of the amount in the Sinking Funds.

Only four cities in the Province use the Sinking Fund method.

Only one municipal district in the Province has an outstanding debenture debt, and this municipal district has been indigent for some years, and is now included as part of a larger municipal district.

No debentures or temporary loans are charged directly to the Improvement District account, and any further information regarding this should be obtained from the Provincial Auditor.

LOANS and DEBENTURES - DECEMBER 31st, 1936

	Debenture Liability	Total Cash and Investments in Sinking Funds	Seed Grain and Feed Relief due Provincial Government	Municipal	School	Hospital	Totals less Sinking Fund	Per Capita	Population
				- - - - DIRECT SPECIAL LOANS

CASH STATEMENT

This Department does not exercise any direct supervision over cities, nor do we prescribe the books of account to be used by them, and no Cash Statement, other than a copy of their printed Annual Audit, is required by the Department as to their "Receipts"and "Payments".

The cities do remit to the Department on a prescribed form statistical information regarding ,- Assessment, Taxation, Levy, Utilities, Sinking Fund, and Social Service Tax.

It is to be noted that less than $11,000.00 of new debentures were issued by all towns, villages and municipal districts.

It will also be noted that the Net Bank Balance at the end of the year had been decreased by over $100,000.00

INDIVIDUAL MUNICIPAL DISTRICTS

The next seven statements show ten individual municipal districts from different parts of the Province, and one enlarged municipal district,-Neutral Hills No. 331, in the drought area . It is to be noted that this District comprises two old municipal districts and three old improvement districts.

POPULATION AND ASSESSMENT

The figures shown for population are again taken from the 1936 Dominion Census.

MUNICIPAL DISTRICTS —— ASSESSMENTS

TAX LEVIES

In this statement, business, or any other special tax to be used for municipal purposes, is included under "Municipal Levy".

In these Districts five are shown to be in Hospital Districts, while six are not in a Hospital District, but this is not a fai r comparison over the whole of the Province, as there are only twenty-three Municipal Hospital Districts in the Province.

The Wild Land Tax was discontinued at the end of the year 1935, and, consequently, - no levy.

COLLECTION OF TAXES

In this statement the Municipal Tax again has to be divided as to payments made by cash and by labor ; but, unfortunately, the particular auditors in four of the districts shown did not separate the amount of Municipal Tax which had been worked out, but simply showed the whole credit in one figure.

As noted previously, the Wild Land Tax has been discontinued and only collection of arrears is shown.

Besides the rural schools there are other schools operating in all these municipal districts, and please be referred to note on page 2.

CASH STATEMENT

RECEIPTS :

It is to be noted that one municipal district started the year 1936 with an overdraft.

Under "Assets Sold" the two amounts of $9,000.00 and $4,000.00, respectively, are the proceeds of Provincial Savings Certificates.

It should be noted that because of local conditions the Municipal District of Clear Lake No.129 opened the year with nearly $16,000.00 in the bank - sold $9,000.00 of Savings Certificates - and at the end of the year had less than $7,000.00 in the bank.

One municipal district on the list finished the year with an overdraft.

GOVERNMENT TAXES.

The figures in this statement are taken from two sources ; first, the Annual Reports of the Department, which are compiled from the Auditor's Statements of the various municipalities ; and second, from the Public Accounts, and some difficulty has been experienced, owing to the fact that the financial year of the municipalities ends on December 31st, while the financial year in the Government records ends on March 31st.

The term "Equivalent Tax" is used because the tax now known as the "Social Service Tax" was, for years, known as the "Supplementary Revenue Tax", and originally was a tax imposed during the war years and called the "Patriotic Tax".

Prior to the year 1936 this tax was two mills and from the beginning of 1936 the levy is three mills.

The Educational Tax is levied only on lands not included within the boundaries of an established school district, and the Wild Lands Tax was a tax only on unused farm lands, and, consequently, these two taxes show only in municipal districts and improvement districts.

COLLECTIONS ON BEHALF OF THE GOVERNMENT BY SELF-GOVERNING MUNICIPALITIES OF SOCIAL SERVICE (OR ITS EQUIVALENT TAX), EDUCATIONAL AND WILD LAND TAXES, AND THE SAME TAXES COLLECTED BY THE GOVERNMENT ITSELF IN IMPROVEMENT DISTRICTS.

(OVER A TEN-YEAR PERIOD).
